

Dear Paul,

5/22/85

Thanks for contacting Salkind for me. I've written him. He'll have to have changed very much for you not to find him a very good person.

You are quite right, I'd forgotten those references to MVD interviews. It is probably that all the hurlyburley about the KGB not interviewing Oswald washed what you refer to out of my mind. (And Intourist isn't KGB?)

If my memory does not deceive me, Schweiker also knew that the Hoover alleged imposter stuff was not withheld because I told him, having used it to confound Jones Harris and Willens both on TV in Washington after Harris planted that story on the Times.

With regard to the phony claims regarding a Hunt CIA memo, I think you've been in touch with Lardner, and I'd recommend him if your source is willing to talk to him. At the NYTimes I believe Jim and Mark have been dealing with David Durham. If you do no good with them you might try Tony Marro, mg. ed. or Les Payne, national ed., at Newsday, whose address is merely Long Island, N.Y. 11747.

I was not aware that Mark was not sending copies to you. I saw some records relating to you and I'd have sent them. But if Mark sent any, he probably sent all. And I do not see all.

As of today's mail, no word from the appeals court. I presume that this means there is some kind of reconsideration, but I do not presume that that means the kind of result I'd like very much. For which I still nonetheless hope.

The returned briefs came today. Thanks.

Best to you all,
